

# **Aluminium Glass Frail**

Specialist Glass Carrying

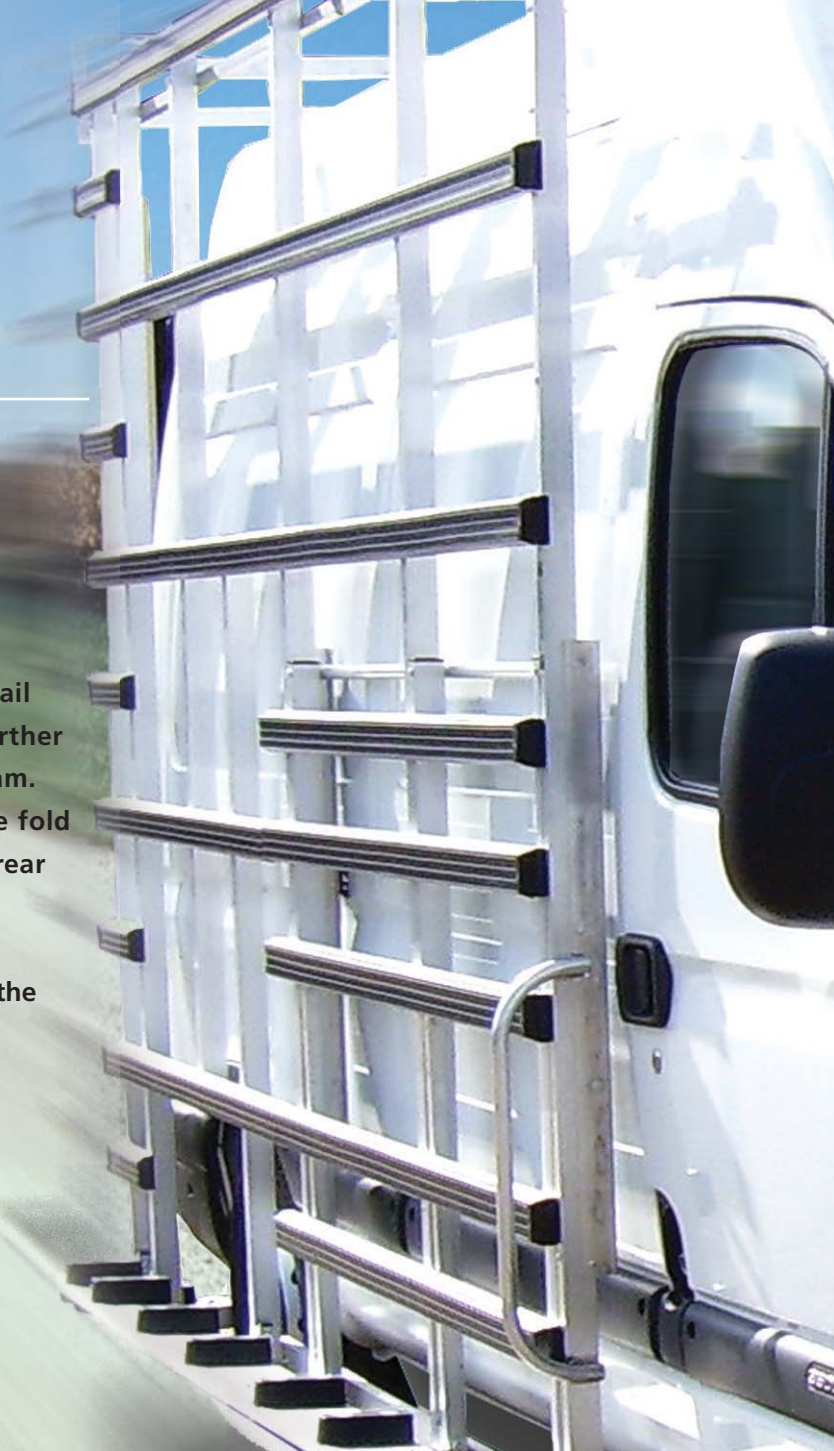

## Aluminium Glass Frail

### Specialist Glass Carrying

Introducing the new Aluminium external glass frail which includes a range of versatile options to further improve the performance of your installation team. The frail includes an integral ladder and a unique fold out bench so work can be carried out on site. A rear wheel access panel is also included for an emergency wheel change without removing the whole frail off the vehicle. The aluminium frail is the most versatile on the market today, designed to fit virtually all commercial vehicles, from the smaller car-derived vehicle through to the larger panel van.

Constructed from light weight materials, typical weight of 70 Kg, it has nominal impact on the available payload of the vehicle thus allowing you to carry more on board. Bott also provide a range of storage equipment to allow tools and equipment to be stored safely and securely on board whilst in transit.

## 10 good reasons to use the bott Aluminium Glass Frail

### LIGHTWEIGHT

Manufactured from aluminium thus has a nominal effect on the payload of the vehicle.

### UNIQUE EXTRUSIONS

Clip on full length rubber facings protect the material carried on board the frail.

### QUICK ACCESS

Instant access to remove rear wheel access panel at roadside.

### LOW COST

A unique bolt together assembly results in low cost replacement parts.

### EASE OF INSTALLATION

Available by mail order with full set of fitting instructions.

### FOLD AWAY BASE BOARD

Reduces overall width when unloaded. Available in 50mm, 125mm & 200mm depths.

### STRENGTH

Box section construction which makes the frail significantly stronger.

### VERSATILITY

Integral fold down glass cutting workbench.

### SECURE

Spring loaded glass retaining poles which secure the load whilst in transit.

### VISIBILITY

Unique Hi-Vis, glass restraining wedges. Easily seen by pedestrians and road users to wide loads.
