

NORMLINE

**In-Vehicle Equipment
Mercedes Vito Long**

Note: Conversion above includes additional equipment over and above the Normline range.

Bott In-Vehicle Equipment and its advantages

Bott Ltd is one of the U.K.'s leading manufacturers and suppliers of In-Vehicle Storage Equipment, primarily for light commercial vehicles. Over the years Bott has established a strong reputation for its high product quality and service excellence.

As a U.K. manufacturer, Bott provides a range of standard modular solutions from its Normline range for single vehicles through to large fleets. This includes solutions for the tradesman through to national service fleets, the emergency services and utility companies.

As a company we offer a complete project management service; this involves anything from organising vehicle movements, design and

installation of electrical equipment through to the design and application of vehicle signs and graphics.

Bott are also able to offer a bespoke design service for those requiring something more specialised.

There are many features to the Normline range. These include locking bars, providing extra security for drawers and service cases; trigger locks to ensure drawers and service cases will not roll open and extendable runners to enable easier and more extensive access to drawers and service cases.

Health & Safety

For over 15 years, Bott Normline has been successfully tried and tested by a wealth of customers. Customers now recognise how our Normline range can help address health and safety matters when working from a vehicle.

Storage & Organisation

Efficient location of tools and other materials. Everything is to hand and neatly stored in your vehicle.

Flexibility & Mobility

Portable storage boxes and cases allow parts and tools to be easily transferred from the vehicle to the workplace.

Load Capacity & Rigidity

Achieved through a highly engineered heavy duty, steel construction to provide strength and durability.

Design of Equipment

Helps portray a professional image, and provides increased protection for occupants and materials.

Professional Image

Effective well equipped vehicles and motivated staff will improve customer perceptions of your business.

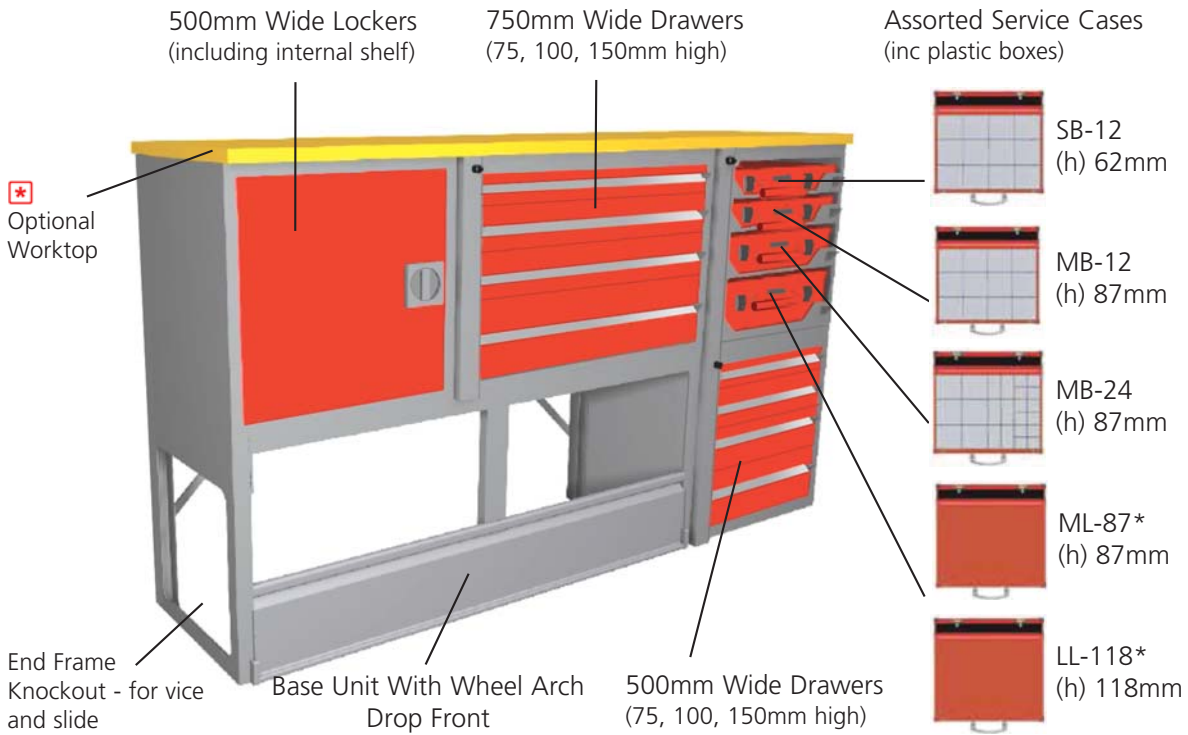

Pay-back

Through a combination of these advantages Bott In-Vehicle Equipment offers a sound investment into your working vehicles.

Quality

Manufactured in the UK, Bott Normline complies to ISO 9001:2000. This ensures products are manufactured to the highest standards every time.
