In-Vehicle Equipment for the
Renault Kangoo

k a n g o o

U n d e r f l o o r d r a w e r s

Concealed drawer package

The Renault Kangoo is ideally suited to the **under floor drawer solution**, with its

three large drawers and raised floor there is still plenty of useable load space. This package consists of 2 850mm drawers at the back of the van and one drawer accessed from the near side door. The drawers are lockable and can be divided into compartments to separate tools and components. So, when the van

doors are closed the drawers and contents are hidden from prying eyes!

- **Lining Kit** -12mm anti-slip floor and polypropylene side lining - part number 158 71 201.
- **Under Floor Drawer Solution** - including 3 lockable drawers and a full size anti-slip floor - part number 100 99 253.04 (Access to the spare tyre restraint mechanism is catered for in the design).

These perfo panels are a useful idea to compliment the Bott underfloor drawer system or they can simply be installed on their own as a handy place for storing useful items that you need regularly. A 10 piece perfo kit is included in the nearside package; and the tilt bins are included in the offside package. The document holder and can holder are available as extra items.

- **Nearside, Perfo Panel Kit** -including 10 piece perfo kit - part number 158 71 203.01
- **Offside, Perfo Panel Kit** -including 2 tilt bin kits - part number 158 71 204.01
- **Health and safety kit** - includes 1x 2 kg fire extinguisher and 1 first aid kit - part number 158 23 050.

Equipment illustrated is for SWB van with side loading door

To place an order please note the part numbers for the items that you require and make sure that they are suitable for your make and model of van. Then contact your Renault dealer who will advise you of the installation options and cost.

For further information on these standard products from the Bott Limited range please contact your nearest Renault dealer using the details below.

Bott equipment will, under normal conditions, provide long and reliable service. If fitted by Bott installation specialists and maintained in a reasonable manner it should last up to and beyond 6 years.

As part of our ongoing policy of product improvement and development Bott reserve the right to alter colours and specification to those illustrated in this leaflet.

Any tools, accessories or components illustrated are not included in the price.
