complete vehicle graphics service

DESIGN - PRINT - APPLICATION

bott combines more than 20 years experience in vehicle enhancement with the latest in decal design and print technology to bring you an advanced vehicle graphics service designed to give your business maximum impact.

Our process uses high quality decals and full vehicle wraps that can be conveniently removed to allow new designs to be applied – enabling you to refresh your branding at low cost, use your vehicles for product promotions, and protect their residual value.

Our vehicle decals and wraps are also ideally suited to improving the visibility of your vehicles in safety critical situations.

We work in full consultation with you to ensure that your design concepts are brought to life – and our 3M-trained application technicians ensure a professional result, every time.

Whatever your needs, bott's breadth of expertise provides a complete vehicle graphics service – design, print and application - to give you an outstanding result and complete peace of mind

Ensure safety and duty of care requirements are met

Maximise brand awareness

promotions
with
impact

our service

DESIGN

Whether you are working to corporate branding guidelines or have a more flexible brief, have a small box van or a fleet of 40 ft curtain-sided trailers, our experienced graphic design team can help you realise your vision. We listen to your requirements and develop a solution that meets *your* needs

PRINT

We have the latest digital technology available to produce high resolution decals and vehicle wraps, and use 3M vinyl substrates and high quality UV-fast dyes to produce a professional and durable result

APPLICATION

Our experienced team of application technicians apply your decals and wraps with absolute precision. 3M training means we can ensure a consistent high quality application

THE RESULT

Commercial vehicles that stand out from the crowd and say everything about your business. Contact bott to see how we can help give your vehicles maximum impact
