

Workshop & storage solutions
for the Peugeot Partner

p a r t n e r

The *Peugeot Partner* works just that bit harder when fitted with one of these solutions from Bott.

The Bott **under floor drawer solution** is combined with a shelf module; the drawers provide concealed storage for valuable tools and equipment; and the shelves give extra space for storing components or materials. The lockable drawers are 1mtr long and can be divided into sections using a Bott divider kit.

An added bonus for this installation is a full length locker accessible from the cab, which provides useful and secure storage space behind the seats.

Choose from a range of accessories to personalise the installation to your trade.

- **Lining Kit** -12mm anti-slip floor and polypropylene side lining - part number 158 71 151
- **Under Floor Drawer Kit** - includes 2 lockable drawers and a hardwearing anti-slip floor - part number 158 71 152.04
- **Shelf Module** - includes a top tray and two low front shelves - part number 158 71 156.04 (Plastic storage bins are available at extra cost).
- **Health and safety kit** - includes 1x 2 kg fire extinguisher and 1 first aid kit - part number 158 23 050.

The Bott **pull-out panel system** is available for the nearside or offside of the vehicle, with a four shelf module on the opposite side.

This system is ideal for tradesman including painters & decorators, service engineers, electricians or plumbers. The sliding panel comes complete with 4 sizes of tilt bins for storage of small parts and components and a 20-piece perfo accessory kit. The shelf module provides additional space for larger or bulky items.

- **Lining Kit** -12mm anti-slip floor and polypropylene side lining - part number 158 71 151.
- **Pull-out Panel** - Nearside - part number 158 71 153.01. Offside - part number 158 71 154.01
- **Shelf Module** - includes a top tray and 3 low front shelves and a drop front storage area at floor level - part number 158 71 155.04 (Plastic storage bins are available at extra cost).
- **Health and safety kit** - includes 1x 2 kg fire extinguisher and 1 first aid kit - part number 158 23 050.

The Bott **sliding floor solution** provides access to the full length of the vehicle, which helps to reduce the risk of injury through the driver reaching across a load for goods at the back of the vehicle.

This sliding floor comes with a durable, non-slip floor and six lashing eyes for securing the load. Nylon rollers ensure a smooth action and a locking mechanism keeps the floor securely in position during transit.

- **Lining Kit** -12mm anti-slip floor and polypropylene side lining - part number 158 71 151.
- **Pull-out Floor** - part number 158 71 157.01. (A range of restraint straps is available in various lengths at extra cost.)
- **Health and safety kit** - includes 1x 2 kg fire extinguisher and 1 first aid kit - part number 158 23 050.

To place an order please note the part numbers for the items that you require and make sure that they are suitable for your make and model of van. Then contact your Peugeot dealer who will advise you of the installation options and cost.

For further information on these standard products from the Bott Limited range please contact your nearest Peugeot dealer using the details below.

As part of our ongoing policy of product improvement and development Bott Limited reserve the right to alter colours and specification to those illustrated in this leaflet.

Any tools, accessories or components illustrated in the photographs are not included in the price.

Each installation should have a standard Bott floor and bulkhead.

The bulkhead is available with a safety glass window if required.
